

FRANCE WILL CARE FOR ALL ORPHANS

MOVEMENT STARTED IN UNITED STATES SAID TO BE WHOLLY UNNECESSARY

(By Associated Press.) PARIS, May 6.—"France is not going to export any of its war orphans," said Monsieur Alfred Croiset, head of the faculty of letters of the Sorbonne, explaining the participation of Americans in the work of the orphanage of the armies of which he is president. "I know a statement was published recently to the effect that 150,000 American families had offered to adopt orphans of the war. The number was a little exaggerated, and the word adoption used in its general sense was misleading. Orphans of the war so far as it is possible are to remain in their families, especially when the mother is living. Where there are no immediate relatives to take care of them, they are to be placed in other French families and ultimately will be cared for by the state until their majority; none of them are available for adoption under the common acceptance of the term."

"Most of the Americans who have expressed the desire to participate in this work understand this point quite well; in fact in our correspondence the majority of the letters from the United States express the desire that the children which they agree to support remain in their families. The supposition that there are 150,000 American families wanting to take care of orphans arose no doubt from the fact that we were asked by Americans as to about how many war orphans there were needing assistance, and we put the number at 150,000. This, of course, does not comprise all of the war orphans. They were estimated recently in a debate in the senate by Senator Jenouvrier at 800,000 which of course included half orphans, but a great proportion of these will never become the objects of charitable work and the exact number may never be precisely determined."

GROWING ZINC CAMP

There are now twenty-six children enrolled in the Goodsprings school and the number is rapidly increasing. Two teachers are employed, Miss Winn and Mrs. Sanders, and in all probability an addition to the school house will be built and a third teacher employed next term.

BRITISH RELEASE PRISONERS

(By Associated Press.) LONDON, May 6.—The British government has decided to release the 38 Germans and Austrians who were taken from the American steamship China.

INCREASE OF STOCK

Amendment to the articles of incorporation of the Tonopah Bonanza Mining company increasing the capital stock from \$1,000,000 to \$1,500,000, have been filed with the Secretary of State.

TUNGSTEN DISCOVERED

John Manion, who is grub-staking two tungsten prospectors in the new district lying between Round Mountain and Belmont, received samples yesterday that yielded 8 per cent tungsten. Mr. Manion will leave for camp tomorrow morning to investigate the find.

U. OF C. PROMISES WELL ON THE WATER

EIGHT OARED TEAM IS IMPROVING RAPIDLY UNDER NEW COACH

(By Associated Press.) SAN FRANCISCO, May 6.—"Stanford has better watch out for herself next year."

Adherents of the University of California passed this remark after watching the series of four eight-oared crew races recently rowed on the Oakland estuary, and the sentiment found echo among the supporters of the Palo Alto institution.

While the California varsity crew was beaten in hollow fashion by the Stanford eight, the consensus of opinion seemed to be that Coach Ben Wallis was more than vindicated by the showing made by his freshmen. Followers of California reasoned about as follows:

The defeated varsity crew was not solely the product of Wallis' methods. The new coach suffered under the handicap of being compelled to unteach his men many of the theories that his predecessor had taught them, which conflicted with Wallis' ideas. This was apparent during the race. For the first two miles of the three mile test, the Californians rowed in good form and Stanford was unable to shake them off, having a lead of not more than half a length at the half way point. Then Stanford made an unexpected spurt. This disconcerted the Californians and in their anxiety to maintain their place they reverted to a disorganized and hybrid style of rowing which was neither Wallis' nor that of his predecessor.

With the freshmen, Wallis started out with brand new raw material on which he could at once impress his methods without first requiring his men to unlearn something else that had been taught them. The comparison between the California first varsity and the first freshman crew showed the latter to be much the smoother working machine. The first freshman crew was considered, by followers of rowing, to have shown the best form of any of the California eights.

The best evidence of California's hopes for the future was apparent after the races were over. Little or no thought was given by the Californians to the defeat of their varsity crew. Instead, interest centered, and there was jubilation over, the showing made by the freshmen.

With the installation of several ice skating rinks in San Francisco, there has been considerable talk about forming an amateur ice hockey league.

Since they resumed their friendly athletic relations, the various teams of the University of California and Stanford University have met in a greater diversity of sports than at any time in their history. These contests have resulted as follows:

California won baseball, swimming, tennis, wrestling, basketball, Stanford won soccer football, track athletics, rowing.

Neither university was able to gain the advantage in boxing bouts resulting in a draw. California also may be credited with having won the chess tournament.

KNIGHTS OF COLUMBUS DELEGATES TO CONVENTION

George L. Dugan and J. H. Troy have been elected delegates to the state convention of the Knights of Columbus to be held in Reno, May 15. The alternates are D. J. Robb and Jos. P. Stenson. Tonopah will also send D. N. Nolan, grand knight of the local council, who holds the office of state advocate and Frank Kerna, state secretary.

BIG BULLION SHIPMENT

The largest bullion shipment of many years was made from the Mexican mill Monday, when seven bars of

bullion, valued at \$33,000, was sent out. The bullion represented a run on ore from the Union Con.—Enterprise.
